

JM-LG05

Ultra-thin Package GNSS Tracker

The JM-LG05 is an asset tracker specifically designed for logistics and shipping. Its built-in light sensor can detect the opening of a box or shipping container, and will send alerts immediately in this event. Due to its ultra-thin size, internal 2,500mAh battery capacity, and configurable tracking modes, the LG05 fits easily inside packaging containers, giving you 24/7 visibility into the location of your shipment.

GPS & LBS Positioning

Two complementary positioning systems ensure the locations to be accurately displayed on cloud platform.

2,500mAh Rechargeable Battery

Ensures moderate standby time, also the device can be redeployed after charging.

Multiple Tracking Modes

Configurable tracking modes according to your actual demands.

Ultra-thin Body

8mm thickness allows you to put this device into small package.

Unpacking Alert

Light sensor will be triggered and send an alert when the package has been unpacked.

Multiple Alerts

Instant alerts of typical events such as low battery, geo-fence, etc.
